- Parent Managed Headlice Program

All volunteer parents sign a confidentially agreement to ensure information privacy for all children and their families. The program goals include reducing the frustration and misinformation associated with headlice, decrease the concerns regarding headlice within the school community, protect families from misusing potentially harmful insecticides treatments and promoting a regular home based screening program using a conditioner and comb method. We invite you to include your child in our screening program, which will be held twice a term or as necessary. There are two options used by the volunteer parents to check your child's hair.
