Dear Parents/Guardians,

Tomorrow will be a pupil free day at school where the teachers will organize how the remote learning will take place. Some changes will be made as to how the learning will be presented this term. Children will only be allowed at school for on site supervision if parents can not work from home, are vulnerable or the students have a disability. Students will be supervised by me and will receive the same learning opportunities that students at home will receive.

The health and safety of all people here at Coimadai PS remains top priority. Health guidelines remain unchanged in regards to good hygiene practices. If your child is sick or show any symptoms of a sore throat, runny nose or fever then they **must remain at home**. Children who show symptoms will be isolated from students at school and parents will be called to collect them.

I will continue to keep you up dated with the latest directives from the government so please monitor your email account, the school's Facebook account and classroom Dojo.. If you are ever in doubt and need advice ring the COVID-19 hotline on 1800 675 398. The staff are extremely helpful and the hot line is easy to access.

Head Lice We have had cases of head lice. Please check your children's hair and treat the lice if necessary. Students will be sent home if teachers can see head lice.

To remain safe I ask that;

- All children have their own drink bottle as the bubble taps are turned off.
- If your child has lost their pencils, pens and other classroom items can you please have them replaced. We will be limiting the amount of items children will share in the classroom
- Social distancing in the car park is adhered to by all parents.
- **All parents to wear a face mask if you leave your car for any reason**

- Limiting only one person in the office a time.
- Keeping your child home if they are the least bit sick.
- If possible use Bpay to reduce the risk of spreading the disease by handling cash.

I will send home more news and details of what to expect tomorrow once we have finalized all the requirements for the coming two weeks.

Remain safe and healthy,

Moira Ross

I'm in the food court at Woodgrove Shopping Centre. The food court is busy. There are people eating and it's loud. It is also hot and stuffy in here as are so many people here today. There are adults and children talking and it's really loud, because they are all trying to talk over each other and the noise from the shops is loud too.

All I can smell is food!!! It's making me really hungry, I can't decide what I'm going to eat, my tummy is rumbling. I'm watching the food go past me on people's plates, It looks great, I've made my decision, it's KFC for lunch today for me. By Gabe

I slouch at the table on the hard plastic seat eating the KFC I bought. I hear kids screaming at their parents saying, I WANT THIS, I WANT THAT. Then I see a glimmer of pink out of the corner of my eye, I glance over to my left. I see this woman wearing high pink boots and a tight pink leather dress, she's making so much noise with her high pink boots they sound like "CLIP CLOP CLIP CLOP". Then I glance over to my right and see a man SHOVING, his face with sushi. I can hear teenagers and parents arguing because the teenagers want to go see her friends. I hear baby's crying because they are very hungry. *LIKE FEED YOUR KIDS!!* I yell in my mind at those parents. I open my can of Pepsi max, and after I open my Pepsi max, I leave the foodcourt saying in my head "*that was THE WORST DAY AT THE FOODCOURT YET*"

Oh No! It is going to Fast

9:30pm MONDAY

It is my birthday, I really begged mum to go skydiving, and I cannot wait for her answer, as I was writing in my journal mum came in and these words just had to come from her mouth "bedtime honey" so I did what she asked, and packed up my journal and tried to head off to sleep. I look at the clock its 12:00am, 3am I am somehow still awake... finally I fall asleep, it felt like it was only for a few seconds, when the daylight was shining through my window and I was dreaming of falling from the sky. Was it a dream? Was this happening? No, it was not a dream, I am doing this, and I am skydiving. I stopped panicking and just glided through the air like a bird. I could see the ground, I pulled my parachute cord and nothing came out.... My heart was racing, I was breathing fast, I am up in the sky I was trying to think of how to survive but it was too late I going way to fast and could not stop. The next thing I heard was splat! Then I bounced out of my bed and just realised that it was just a dream.

8:00pm TUESDAY I am still having a think about my dream last night, I am eating cereal to make me happy but it's not working.

4:35PM Wednesday

We are in an airplane to Miami for some reason, Oh No! It is going to fast, 1 hour later; it seems the pilots are losing control, so now I was freaking out, I looked out the window, and saw the airport and I came up with an plan, I mean I only had like 1 day of pilot practice but I do not think I can pilot this plane because it is going way to fast. Then suddenly I am in the cockpit flying a passenger plane for the first time ever, we had to land and I had a go... crush crash all I hear after the plane was people crying and I did not know what to do, my heart was racing as fast as a Lamborghini.

As I walk off the plane, I tripped down the stairs and of crash bang boom!!! Of course had to break my leg! Yeah that is my life. By Lochlan Spry
